ICONS EXPLANATION

ALL WEATHER CUSHIONS

Taste 4SO furniture is durable and weather resistant, what about our cushions? All of our collections have cushions with an Olefin cover (mostly with a zipper) and an anti-mould foam inside. This Olefin fabric can stand UV rays, temperature differences and dries fast. We do advise to cover your cushions to avoid stains caused by any other influences, and enjoy your Taste 4SO furniture directly after a heavy shower.

HIGH QUALITY TEAK

In all Taste 4SO ranges, when applied we only use high quality Teak wood with a SVLK/V-legal certificate. Teak hardwood has natural oils inside that make it withstand the weather conditions. The natural defense mechanism of Teak turns the outside in a light grey look, depending on the weather conditions it may take 3 – 12 months. We offer a wide range of 4SO maintenance products for cleaning and treating your Teak wood, finishing it in your preferred look!

ROPE

All of our rope materials have a polypropylene base or weave, assuring the rope remains taut. The cover is made of an acrylic fabric that is very UV resistant, water repellent and has a comfortable feel. Taste 4SO Rope contains no hazardous materials and can be fully recycled.

ALUMINIUM

This weather-resistant material is very suitable for outdoor use. Processing of this material is simple, which means that the application of aluminum is very diverse. You can find this lightweight material throughout our collection.

STAINLESS STEEL

A luxurious material with perfect outdoor abilities, used in a wide range of Taste 4SO furniture.
Stainless steel is strong and slightly flexible, in several collections we use a powdercoated tube with a sophisticated design.

HANDMADE WICKER

All Taste 4SO wicker is made by hand. That gives our wicker its unique looks. Its easy to clean, durable and resistant to UV rays. The material contains no hazardous substances and can be fully recycled.
